Nail Cutter Grinder

The Cutting tools of the nail making machines become blunt and they require re-grinding. We have developed a special cutter Grinder for grinding all the profiles of cutters. These are provided with special type of jigs and fixtures so that even a semi-killed worker can grind (re-sharpen) the cutting tools easily after a short training. It takes only a few minutes to re-sharpen. These wheel type Cutter Grinder is available in 200 mm wheel size.
